Endnotes

Statistics for FY01 (10/01/00 to 09/30/01) are based on short stay acute hospital inpatient discharge data received as of 5/10/02; some data that failed DHCFP edits have been included. Data from 77 hospitals open during part or all of this period are included in this year-end edition of *Datapoint*. This includes data from 18 teaching hospitals and 59 non-teaching hospitals. The underlying statistics used to create the *Datapoint* graphics are available on our web site: www.mass.gov/dhcfp.

The following hospitals are categorized as teaching hospitals: Baystate Health Systems, Berkshire, Beth Israel Deaconess, Boston Medical Center, Brigham and Women's, Carmbridge, Carney, Children's Medical Center, Dana Farber, Faulkner, Lahey Clinic, Mass. Eye and Ear, Mass. General, Mount Auburn, New England Medical Center, St. Elizabeth's, Saint Vincent, UMass/Memorial Medical Center. Due to technical issues, data for Somerville Hospital is combined with data for the Cambridge campus in our calculations.

Charges are not inflation-adjusted and do not represent costs or payments.

Case mix index is calculated using Massachusetts cost weights (base year = FY93) for the 3M All-Patient Grouper, version 12.
